## Summary

An energetic and enthusiastic guy willing to learn from and help startups in technical aspects. Schedule a tech consultancy meeting with me here <https://calendly.com/kdpisda/tech-consultancy> for your startup/business. I am a full stack developer, love to share my knowledge about web development, digital marketing, and growth hacking.

When I am not coding I love reading books, writing blogs, playing some games, listening to songs or simply sitting somewhere in the lap of nature doing nothing or embracing it.
